Story Points vs. Days

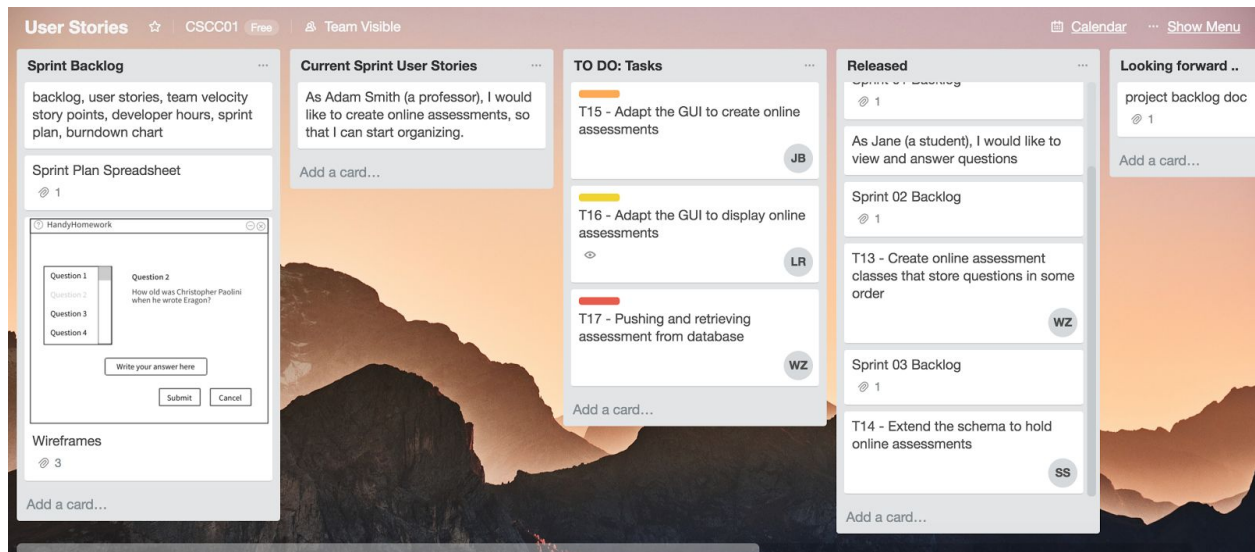

Sprint Report:

- Changes to backend classes - had some trouble with the way it was implemented:
    1. Assessment and question class modified to address database and GUI concerns
    2. Design choice to add answer class
- Unforeseen events:
    1. We overestimated the time we could spend on C01
    2. We had a lot of design changes that led to delays on dependencies from current and previous sprint
